Size Distribution

Naturally raised in mangrove forests, Selva Shrimp® are able to grow large due to low stocking densities and the favourable conditions offered by their natural habitat. This makes Selva Shrimp® the ideal source for large-sized, healthy shrimp.

Product Properties

Selva Shrimp® are characterized by their firm texture, succulent flavor and natural, vibrant color. As the shrimp do not receive any artificial feed, all Selva Shrimp products are 100% GMO free. They are carefully caught by net and immediately put on ice to preserve freshness and taste.

Packaging

The unique properties of mangrove forest shrimp are best promoted and recognized by the Selva Shrimp® consumer brand. Multiple packaging, communication and promotion solutions will be provided based on your needs.

Your Sustainable Shrimp Choice!

Sustainable shrimp raised by mother nature

Selva Shrimp® are raised in integrated mangrove forest farms with no feed, fertilizers and chemicals. The mangrove forest provides habitat and food for the shrimp.

Partnering with small-scale farmers for mangrove conservation

Selva Shrimp® provides livelihoods for small-scale farmers that maintain mangroves and offers economic incentives for mangrove restoration and conservation.

Community
Farmed

Your guarantee for supply chain integrity and credibility

All Selva Shrimp® products are subject to an integrated farm verification and traceability system, which is subject to independent, third party auditing.
