

Vacancy: Project Manager tropical Aquaculture 100%

Master in Aquaculture Science / Aquatic Systems Biologist

Blueyou is an internationally recognized consultancy for sustainable aquaculture and fisheries. The company does offer a range of specific services in the field of sustainable fisheries and aquaculture and the related supply chains. Clients of Blueyou do encompass private industries in both production and market sectors, governmental bodies and leading NGO's in marine conservation and sustainable development area worldwide. Our team of consultants is seeking a *Project Manager for tropical Aquaculture* to be partly based in Bangkok / SE Asia and in our head office in Zurich, Switzerland.

Job Profile

- Project management for implementation of market-based certification schemes
- Capacity building, training and coaching of local partners and clients
- Evaluation and planning of sustainable aquaculture projects in tropical areas worldwide
- Quality assurance, feed- / food-safety, sustainable aquaculture standard compliance procedures
- Research, studies and concepts in the field of sustainable aquaculture
- Focus is on aquaculture of Shrimp, Pangasius and Tilapia

Qualification Profile

- Masters degree in aquaculture / aquatic biology
- Professional practical experiences in aquaculture projects and farming operations
- Excellent skills in English required (oral and writing) and preferably one of the following additional languages: Spanish, French, Swedish, German, Dutch, Italian
- Excellent skills in *Microsoft* office applications (Word, Excel, Power Point)
- International working experience in development or transition countries, preferably in SE Asia
- Excellent scientific, analytical, conceptual and strategic skills
- Efficient approach towards project management within a challenging multicultural environment
- Strong focus on markets, supply chains and the related and economic realities
- Autonomous, generalist and confident personality

We are looking for an open minded and highly motivated person between 25 and 40 who shares our vision and engagement of facilitating a sustainable future for world's fisheries and aquaculture sector. The position will involve intensive travelling and longer term mandates abroad, operating out of Bangkok, Thailand. Blueyou offers an interesting and diversified job within a small dynamic team with great outlook for professional development in an international environment.
